WASHINGTON, June 4.—Thirteen
Senators, six Democrats and seven Republicans, were in the chamber when of the Tariff debate at 10 b'clock to-day.

Benators, six Democrats and seven frequential publicans, were in the charmest when publicans, were in the charmest when publicans, were in the charmest when the publicans were in the charmest with the special publicans and the publicans when the publicans were in the charmest with the special publicans. The Pollock case attracted great attr

of purchase, not at the ports of export nor the port of enthy. Sugar was produced abroad under a complicated system of taxation, drawbacks and bounties, and he thought the ad valorem duty imposed by this schedule would distinctly exclude France from exporting a pound to the United States, certainly Austria and practically Germany. The 40 per sent. duty, based on prices ranging in New York, would give the Sugar Trust 65 cents protection on the one hundred pounds, exclusive of the one-eighth specific duty on refined, and the one-tenth cent differential. On London quotations the differences between the prices of raw and refined sugar ranged at about nine-tenths of a cent., which would make the 40 per cent. ad valorem duty afford a protection of 36 cents on the one hundred pounds.

Be Speedily Released.

Judge Cowing decided this afternoon to commit Mrs. Catherine M. Fitzgerald, who while insane shot and killed Mrs. Carrie Pearsail, to the State Hospital for the Insane at Middletown.

Frederick B. House, of Friend House, counsel for Mrs. Fitzgerald, opposed this action, moving for her discharge on 'he ground that the jury had acquitted her, and had not decided as to her present mental condition.

Mr. House cited the case of John J. Scsnnell, who, on being acquitted of murder on 'he ground that he was insane at the time of the shooting, was discharged, and was afterwards sent to an insane asylum by his family.

Judge Cowing called attention to the statute, which, he said, left him no silternative.

"Under that law I must commit her to an asylum, not as a punishment, but for treatment. If she is sane the authorities at the asylum will not detain her twenty-four hours," said Judge Cowing.

That the police authorities have been thoroughly siarmed and rattled by the sensational revelations of the last week is shown by the fact that Col. E. C. James, the great objector, has been retained to assist Mr. Nicoli in looking out for the interests of the accused officials.

Col. James was one of the earliest comers this morning. Lawyer Stillwell, of Mount Vernon, was also on hand. He did not bring his quondam client, exson-in-Law Gideon Granger, with him, and said he only came to be on hand in case the Committee wanted to ask him any questions about Granger. He hasn't seen the latter, he says, for more Eldridge street station, arrived and took a seat in the chair reserved for witnesses. Great Lack of Funds.

It is true that the counsel for the Committee have been greatly hampered by lack of funds. Mr. Goff has already paid out of his own pocket all the expenses thus far incurred for stenographer's fees and various other details of the work. The only ald which has thus far come to them has been from the Parkhurst Society, which has furnished the services of its agents free of charge. Nothing has yet come in from the Chamber of Commerce, as majestic bodies always move slowly, but it is thought that the money will be forthcoming in time. It is at the present time, however, that it is most needed. Among the crowd which was packed inside the rall were several stout women with blonds hair. It was understood that they would follow up the testimony of Mrs. Rhoda Sanford, and Mrs. "Baldy" Jones.
